ROUTE SALESMEN

At first I thought it hard to have to start all over again, but as time went on I began to realize that in reality it was a blessing in disguise. From somewhere I had learned that no man could ever win real success and happiness unless he were doing just exactly the one particular kind of work that he most wanted to do.

I sought the advice of a friend of mine, who knew me very well, and this is what he said to me: "Why don't you get a job seli-ing advertising? That work will take you into the offices of various kinds of businesses and sooner or later you will run across that business which will have the greatest natural inter-est for you, where you will be happiest and get along fastest."

What I liked most about his remark was that he took it for granted that I COULD sell. I had never sold anything, but I had always wished that somehow I could become a salesman. I knew selling must be fascinating and that the earnings and possibilities in the sales department of business were unlimited.

nen in American business. Of orse, there is a reason for it. With my friend's advice in mind I seem reading advertisements for alesmen and started out on my hunt of find the business I liked and the ob in which I would be happy.

isn't it true that most of us are in certain jobs because circumstances and not our own desires put us there? Most people have to earn their living and they can't take the time to set out to piek out what they would like. We don't give our jobs ALL we've got because we don't quite fit in that rarticular husiness or that particular job. We are misfits. Right here is one of the Business uilders' big opportunities for men be carneatly want to recast them-ives; who really want to get into seir right place in business.

Over 450 executive positions, naying salaries, with bonus, of \$100 a week and better-good \$65s-are available within the country year to men who earn them in this great Institution. These positions are with six different companies in six different lines fourness. Surely somewhere among to positions in six different companies is a position you would like a real oil in which you would be a real

And what is more, it won't cost you any time or money to put yourself in line for one of these positions. You will be doing yourself a favor in the meantime by learning the science of selling—"Changing the Minds of Men"—which will remain your permanent asset even if you return to your former business.

The opportunity is here to better yourself:

There is a great deal we can do to help you help yourself. We want to see you make good. FRED H. SCHMIDT. General Staff.
